

The mission of the merchandising division is to integrate education, leadership and research experiences that contribute to critical analyses of merchandising strategies as they relate to the development, distribution, evaluation and use of fashion-oriented products in the consumer-driven global market. Effective leaders are developed through core competencies that include solving complex problems, generating new knowledge, communicating effectively, and creating new product and business strategies. These core competencies are achieved through innovative curricula, laboratory experiences, applied technology, research activities and industry involvement. A merchandising degree can lead to careers in the multifaceted industry, including product development, manufacturing, wholesaling and retailing.
