

DARwin Minor List

Last Updated: October 15, 2007

Note: This is a complete list of available minors in DARwin. For each minor (grouped by school and college), the Requirement name is listed, along with the first catalog year the minor is available. If the Minor shows 'began 200408,' this means that 200408 is the earliest DARwin catalog year that can be used on the student's record. (The catalog year can be overridden using the Year/Term field at the end of the Marker row, allowing a 200408 Minor to be attached to a 200208 Degree Program/Major.)
