Data Reporting and Visualization.

Pre-requisite JOUR 3321 and either JOUR 3300 or JOUR 3210

Description: Course is an introduction to the communication of facts and data by means of charts, graphs, maps, and diagrams. Students will learn the basics of cleaning "dirty" data, how to analyze it using several programs and how to take the data trends they find and turn them into a cohesive data story. Students who are writers that want to know how to use data in their storytelling and create dynamic data visualizations should take this course. This is not a coding class, and no previous coding experience is required. Access to a computer with ability to download software onto it is required as we will be using several free programs that will need to be installed.
